To whom it may concern

**LANSERERIA INTERNATIONAL AIRPORT – ELI COETZEE CONSULTING ENGINEERS (PTY) LTD
PROFESSIONAL SERVICES**

We herewith confirm that Eli Coetzee Consulting Engineers have assisted us with an alteration project of our main terminal building. The project consisted of:

- An extension of the whole main terminal building, inclusive of the main structural steel roof and concrete floor slab.
- The provision of new supporting foundations and columns, and an extension of the 1st floor reinforced concrete slab.
- The installation of two new escalators that provide access to the new 1st floor extension.
- A new feature porte cochere in front of the main entrance to the building.
- New canopies for new walkways to the main building
- Alterations to outside planters that also act as retaining walls, the main access road under the new porte cochere, and the storm water system in the immediate vicinity.

Eli Coetzee Consulting Engineers were responsible for providing full civil- and structural engineering services for the project, inclusive of:

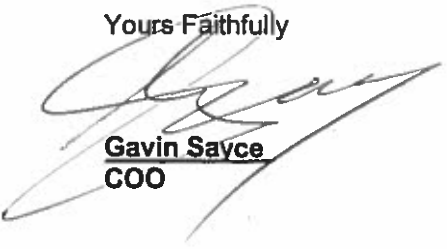

- Concept design and associated input on the costing of the civil and structural components of the development.
- Detail design of the above, and the provision of drawings and specifications from which the work could be executed.
- Performing quality control during the construction period.

The above contract commenced in December 2012, and was completed in July 2013.

The overall cost of the construction work for the project amounted to roughly R15 700 000.00.

With the help of Eli Coetzee Consulting Engineers, the above project was completed swiftly, with no notable unplanned time and cost extensions. In general, we were very satisfied with the level of service provided.

Yours Faithfully

Gavin Sayce
COO
